WINE. MUSIC. PEOPLE.

A good bottle. *A better place.*

ARCHITECTURAL CONCEPT VISUAL - NO EXISTING PROPERTY DEPICTED

An independent neighbourhood wine shop and listening bar, imagined for Hradčanská / Prague 6.

Six approachable wine fridges. A shared table. Thoughtful records. A knowledgeable host. Browse, open a bottle here, or take the good stuff home.

TAKE HOME

A focused bottle shop with clear shelf prices and everyday discoveries.

STAY A WHILE

A concise by-the-glass offer, bottles to open on site and simple cold plates.

DISCOVER TOGETHER

Small tastings and producer or record evenings, suited to the building.

Project status: seeking operating, property, design, refrigeration and investment partners. No location secured. This is a concept presentation, not a financial forecast or construction brief.

A corner of Prague.

Working search parameters for an initial property conversation.

PREFERRED AREA	Hradčanská / Prague 6 is the starting point; other Prague neighbourhoods are welcome. An easy walk, visible frontage and an approachable street entrance. Layout, scale and offer can adapt to the right property.
INITIAL SIZE TARGET	70-110 m² total and a working ambition of 24-32 seats. These are preliminary design assumptions, to be agreed with the founders and checked against a specific unit.
SPACE PROGRAMME	Six glass-front wine cabinets; browsing and purchase area; shared table and flexible seating; small vinyl corner; compact service counter; stock, prep and support facilities.
PROPERTY INFORMATION	Address, floor plan, usable area, frontage, existing fit-out, approved use, power capacity, water and drainage, ventilation options, access, availability, rent and service charges.
OPERATIONAL CHARACTER	Neighbourhood retail and seated hospitality. Conversation-friendly sound; small events only where suitable. Hours, event cadence and sound control to be developed for the building.
FEASIBILITY BEFORE LEASE	Project team to confirm permitted use, access and circulation, fire and occupancy requirements, toilets, washing and food-prep provision, electrical load, cabinet heat rejection, ventilation and acoustic treatment.

The commercial discipline

The original price direction is 390-950 Kč for retail bottles, plus a small special-occasion selection. “Under 700” is a proposed takeaway price category. All buying, gross margins, service pricing and stock commitments remain to be validated.

Before lease commitment: model takeaway and on-site sales separately; include wine cost, staffing, waste, open-bottle preservation, rent and charges, fit-out, equipment, stock funding, payment fees and downside cash flow. No revenue, return or payback claim is made.

The feeling, made buildable.

PAIRED SKETCH STUDY - ILLUSTRATIVE, NOT A MEASURED DESIGN

OLIVE PLASTER

WARM OAK

BURGUNDY

BRUSHED METAL

Keep the character. Make it work.

Retain original windows and architectural character where possible. Prioritise the fridge wall, a warm oak communal table, an olive banquette, burgundy accents and a compact brushed-metal counter. Integrate sound absorption into the room; keep music at a level that allows conversation.

FIRST DESIGN PACKAGE

Measured survey and feasibility layout; tested browsing and service circulation; cabinet specification and ventilation; electrical and mechanical review; washing and prep plan; acoustic approach; materials, lighting and phased cost plan.

NEXT CONVERSATION

1. Review a candidate space.
2. Agree the operating and capacity brief.
3. Test services and fit-out feasibility.
4. Validate costs and lease economics.
5. Develop the interior for that address.

Technical reading: Miele - Storing wine correctly; Liebherr - appliance installation / ventilation.

Let's bring The Fridge *to life.*

Seeking partners to help shape, deliver and run our first venue. A concept by Hugo & Mantas.

Operating partner

A hospitality professional or team to help shape and run the venue, covering staffing, service, stock, suppliers and day-to-day performance.

Discuss operations

Architecture & fit-out

Architects, interior designers and fit-out contractors to turn the concept into a practical layout, costed specification and finished space.

Discuss design & build

Wine refrigeration & display

A specialist supplier to specify and supply wide, glass-front wine display cabinets that combine temperature-controlled storage with clear bottle presentation, browsing access and a practical installation and service plan.

Discuss refrigeration

Investment partner

An investor to explore funding the first venue. Capital needs, business assumptions and partnership terms will be developed around the selected site and discussed privately.

Discuss investment

Property owners & agents

Property owners or agents with a suitable street-level space in Prague. Hradčanská is our first choice; other neighbourhoods and adaptable layouts are welcome.

Suggest a space

Hradčanská first. Open to the right address.

The idea began in Hradčanská. We are open to other Prague neighbourhoods and will adapt the layout, scale and offer to the right premises.

Concept stage. Site, roles, scope and commercial terms to be agreed with each partner.

Under the tree. *A possible address.*

POTENTIAL SITE / NOT SECURED

A study of the Café Pointa premises on Na valech, near Hradčanská. Broad windows, a tree outside and a neighbourhood presence that captures the feeling behind The Fridge.

01 / THE PLACE TODAY

Founder-supplied photograph

02 / ONE POSSIBLE FUTURE

AI-assisted exterior concept

AI-ASSISTED SKETCH / NOT A MEASURED DESIGN

Let the street look in.

Window-side seating, a shared oak table and a softly lit wine display inside. Explore restrained signage and the character already in the frontage.

A location to explore. Availability, landlord agreement and technical feasibility remain unconfirmed. A measured survey, equipment and services review, acoustic work and cost plan would follow. Outdoor seating needs separate confirmation.

Other Prague neighbourhoods are welcome. Layout, scale and offer can adapt to the right premises.
